

Project Title

TCX3901 Industrial Practice — Presentation 2

Member One (A0000001V)

Member Two (A0000002W)

Member Three (A0000003X)

Member Four (A0000004Y)

Member Five (A0000005Z)

Supervisor: Dr. Han Liang Wee, Eric

Bachelor of Information Technology Programme

National University of Singapore

AY2026/27

Repository: <https://github.com/your-group/your-repo> (replace and add supervisor to repo)

Outline

Recap

Implementation

Evaluation

Conclusion

Problem and Objectives

- *Brief recap of the problem and motivation. Example citation (Lamport, 1978).*
- *The objectives set out in the proposal, and any changes to the objectives, scope or approach since Presentation 1.*

Implementation

- *What was built and delivered.*
- *How it fulfils the objectives.*

Design Overview

- *The final design or architecture (a diagram from images/ works best).*
- *Key decisions and their trade-offs.*

Demo

- *Live demo or screenshots of the delivered project.*

Evaluation

- *How the outcome was evaluated: methodology, setup and metrics.*

Results

- *Results and their interpretation, related back to the objectives and user stories.*

Challenges

- *Difficulties encountered and how they were mitigated.*

Summary

- *What was achieved, measured against the objectives.*

Reflection

- *How concepts and theories from your degree programme were applied in the project, and how they affected its outcome.*

Future Work

- *Extensions or improvements that could follow from this project.*

Individual Contributions

Member	Role	Contributions
Member One	Team Lead	
Member Two	Backend Developer	
Member Three	Frontend Developer	
Member Four	QA & Testing Lead	
Member Five	DevOps & Documentation	

Not needed for an individual project: set `\individualprojecttrue` in `config.tex` to remove this slide.
